## IMPORTANT INFORMATION

### What is a list of covered drugs?

A list of covered drugs includes the prescription drugs covered by UnitedHealthcare Community Plan of Minnesota. The drugs on the list are selected by UnitedHealthcare Community Plan of Minnesota with the help of a team of doctors and pharmacists. UnitedHealthcare Community Plan of Minnesota will generally cover the drugs listed in the list of covered drugs as long as the drug is medically necessary, the prescription is filled at a UnitedHealthcare Community Plan of Minnesota network pharmacy, and other requirements related to the drug are followed.

Most drugs and certain supplies are available up to a 34-day supply. Certain drugs you take on a regular basis for a chronic or long-term condition are available up to a 90-day supply and are listed on the [https://mn.gov/dhs/assets/90-day-supply-list\\_tcm1053-490928.pdf](https://mn.gov/dhs/assets/90-day-supply-list_tcm1053-490928.pdf) website.

### Does the list of covered drugs ever change?

The UnitedHealthcare Community Plan of Minnesota list of covered drugs can change during the course of a calendar year. If changes affect the coverage of a drug you are taking, UnitedHealthcare Community Plan of Minnesota will make reasonable efforts to contact you and your prescriber to tell you about the change. UnitedHealthcare Community Plan of Minnesota will also tell you about alternative drugs that are covered.

Examples of some changes that may occur are:

- A drug you are taking is no longer preferred (go to “What is a Preferred Drug List?” below).
- A drug is removed from the list of covered drugs for safety reasons.
- Prior authorization requirements have changed (go to “Are there any restrictions on my coverage?”).

### How are drugs listed in the list of covered drugs?

There are two ways to find your prescription drugs in the formulary. You can search by medical condition associated with your drug or by alphabetical listing.

- **Search by Medical Condition:** Drugs listed by medical condition begin on page 1. The drugs in this formulary are grouped into categories depending on the type of medical conditions they are used to treat. If you know what your drug is used for, look for the category in the list that begins on page 1. Then look under the category name for your drug.
- **Search by Alphabetical Listing:** If you are not sure what category to look under, you can look for your drug in the Index. The Index gives an alphabetical list of all of the drugs included in the formulary. Both brand name and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information within the formulary.

### What is a Preferred Drug List?

In Minnesota, all health plans are required to use the Minnesota Department of Human Services' (DHS) Preferred Drug List (PDL). The PDL is created by DHS, in consultation with the Drug Formulary Committee, to let prescribers and members know about drugs or drug classes that are cost effective. Generally, drugs that are "preferred" are more cost effective and drugs that are "non-preferred" are less cost effective. Preferred drugs are available to members with fewer restrictions. Non-preferred drugs require a prior authorization. To get a non-preferred drug, your doctor or health care provider must get prior authorization. The PDL is included as part of UnitedHealthcare Community Plan of Minnesota's list of covered drugs. UnitedHealthcare Community Plan of Minnesota's complete list of covered drugs includes other drugs in addition to those on the PDL. The PDL is available on DHS's website at <http://minnesota.magellanmedicaid.com/pdl.asp>.

### **What are generic or biosimilar drugs?**

A generic drug is approved by the Food and Drug Administration (FDA) and has the same active ingredients as the brand name drug. It produces the same clinical effect as the brand name drug.

A biosimilar drug is an FDA-approved biologic drug (most often an injectable prescription drug) that is highly similar to an already-approved biological product. It has no clinically meaningful differences in terms of safety and effectiveness. Biosimilar drugs are not the same as generic drugs, but like generics, biosimilar drugs may offer more affordable treatment options.

Generic or biosimilar substitution means a generic version or biosimilar version of a drug is given instead of the brand name or non-biosimilar version of the drug.

UnitedHealthcare Community Plan of Minnesota will cover the brand name or non-biosimilar version of the drug only when:

1. Your prescriber informs UnitedHealthcare Community Plan of Minnesota in writing that the brand name or non-biosimilar version of the drug is medically necessary; OR
2. UnitedHealthcare Community Plan of Minnesota may prefer the dispensing of certain brand name versions over the generic or non-biosimilar version over the biosimilar version of the drug; OR
3. Minnesota law requires the dispensing of the brand name or non-biosimilar version of the drug.

Within the list of covered drugs, brand name drugs are listed in capital letters and generic drugs are listed in lower case letters.

### **What are over-the-counter drugs?**

Drugs and products that are available for purchase without a prescription are referred to as over-the-counter (OTC). Although an OTC product is available without a prescription, if a doctor writes a prescription for an OTC product, UnitedHealthcare Community Plan of Minnesota may cover it. Within the list of covered drugs, OTC drugs and products are identified by the abbreviation of OTC next to the drug or product.

**What are specialty drugs?**

Specialty drugs are used by people with complex or chronic diseases. These drugs often require special handling, dispensing, or monitoring by a specially trained pharmacist.

If you are prescribed a drug that is on the UnitedHealthcare Specialty Drug List, your prescriber will need to send the prescription of that specialty drug to UnitedHealthcare's Specialty Pharmacy.

Name of Specialty Pharmacy: Optum Specialty Pharmacy

Phone and TTY: 1-855-427-4682, TTY 711

Fax: 1-877-342-4596

Hours of Operation: Available 24 hours a day, seven days a week

Website: [specialty.optumrx.com](http://specialty.optumrx.com)

You will also need to call the specialty pharmacy to set up an account. You will need to have your UnitedHealthcare member identification card when you call the specialty pharmacy.

**What if a drug is not on the list of covered drugs?**

Not all drugs are covered. If a drug you want to take is not listed in the list of covered drugs, you can call Member Services at 888-269-5410, TTY 711 and ask if the drug is covered. If not, it is considered a "non-formulary" drug. If you need a drug that is not included in the list of covered drugs, you have two options:

- You can work with your doctor and ask them to prescribe a similar drug that is covered by UnitedHealthcare Community Plan of Minnesota.
- You can ask your doctor to request an exception for your drug.

**Are there any restrictions on my coverage?**

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include the following:

- **Prior authorization:** UnitedHealthcare Community Plan of Minnesota requires you or your doctor to get prior authorization for certain drugs. This means that you will need to get approval from UnitedHealthcare Community Plan of Minnesota before you fill your prescription. If you don't get approval, UnitedHealthcare Community Plan of Minnesota may not cover the drug.
- **Quantity Limits:** For certain drugs, UnitedHealthcare Community Plan of Minnesota limits the amount of the drug that we will cover.
- **Age requirements:** Some drugs have age requirements. A prior authorization may be needed depending on your age and the specific drug prescribed.

You can find out if your drug requires prior authorization, has quantity limits, or has an age requirement by looking in this list of covered drugs. An exception to a drug restriction or limit can be made if your doctor submits a statement or documentation supporting the request. Go to *Prescription Drugs* in Section 7: Covered Services of your Member Handbook for more information. You can also get more information about the restrictions applied to specific covered drugs by calling Member Services at 888-269-5410, TTY 711 or by visiting our website at <https://www.myuhc.com/CommunityPlan>. Also go to “Can I ask for an exception to the coverage restrictions?”

- Excluded drugs: Some drugs are excluded from the list of covered drugs. This means they are not covered. Excluded drugs include the following:
  - Drugs used to treat sexual or erectile dysfunction
  - Drugs used to enhance fertility
  - Drugs used for cosmetic purposes, including drugs to treat hair loss
  - Drugs excluded from coverage by federal or state law
  - Experimental drugs, investigational drugs, or drugs not approved by the FDA
  - Medical cannabis

#### **Can I ask for an exception to the coverage restrictions?**

Yes. You or your health care provider can get the pharmacy prior authorization forms from <https://www.uhcprovider.com/communityplan> or by calling Member Services at 888-269-5410, TTY 711. Your provider must return this form to the fax number or address listed on the document. To allow for a thorough review and to ensure that you or your health care provider gets a response within 24 hours, all information requested in the form should be provided, including documentation of which medications have been tried and failed, including the dosages used and the reason for failure (e.g., side effects).

#### **What will a prescription cost?**

As of January 1, 2024, Medical Assistance covered drugs no longer have copays. You do not have cost sharing for drugs covered under Medical Assistance. MinnesotaCare member do have copays. All copay information for prescriptions is listed in the Member Handbook in Section 6: Cost- Sharing. If you have additional questions, call Member Services at 888-269-5410, TTY 711 or visit our website at <https://www.myuhc.com/CommunityPlan>.

#### **Am I able to get a 90-day supply of my drugs at my pharmacy?**

90-day fills are covered for certain “maintenance” drugs which are drugs you take on a regular basis for a chronic or long-term medical condition.

Please go to [https://mn.gov/dhs/assets/90-day-supply-list\\_tcm1053-490928.pdf](https://mn.gov/dhs/assets/90-day-supply-list_tcm1053-490928.pdf) for a list of medications that are eligible for a 90-day supply.
