

**An Important Message from  
The Texas Health and Human Services Commission (HHSC)**

**Update to the Long-Term Services and Supports  
Billing Matrix and Crosswalk**

**Key Details:**

The purpose of this notice is to share that the billing matrix has been updated effective July 7, 2023 to reflect the changes below:

HHSC added language to clarify that the U6 modifier must be added to all prior authorizations **and** encounter claims for state plan LTSS for members in the Medically Dependent Children Program (MDCP).

HHSC also made corrections to the revenue codes listed for HCPCS code S5151 (Out-of-Home Respite (Facility)). S5151 is now billed as a per diem rate using revenue code 663.

**MCOs and providers must use the link below for services provided on or after July 1, 2023.**
