

# Day activity and health services (DAHS) form requirements

UnitedHealthcare Community Plan of Texas

The Texas Health and Human Services Commission (HHS) implemented standards for day activity and health services (DAHS) providers on Sept. 1, 2017.

These standards require DAHS providers complete the following forms annually, before authorization for DAHS services can be completed:

- **Form 3050 DAHS Health Assessment/Individual Service Plan**
- **Form 3055 DAHS Physician's Orders**

## When to prepare form 3050

Form 3050 is completed by the DAHS facility nurse for DAHS applicants/individuals/members:

- Who need initial prior approval
- Who transfer from one facility to another
- Who need a new service plan developed as determined by the licensed nurse
- Whose nursing services needs have been changed to reflect supplemental physician orders so long as the form remains legible

## When to prepare form 3055

Form 3055 is completed for:

- Initial DAHS approval
- New orders determined by the DAHS nurse or managed care organization (MCO) due to changes in the person's condition
- New supplemental physician orders for nursing services

Both forms should be faxed to 877-940-1972. Detailed instructions and additional information for each form are online at [hhs.texas.gov](https://hhs.texas.gov) > Regulations > **Forms**.

## Questions?

Find additional information and resources for DAHS providers, including codes, rules/statutes, news, training, communications and more at [hhs.texas.gov](https://hhs.texas.gov) > Long-term Care Providers > **Day Activity and Health Services (DAHS)**. For questions, you can go to [UHCprovider.com/TXcommunityplan](https://UHCprovider.com/TXcommunityplan) > **Contact Us**.
