This reimbursement policy is intended to ensure that you are reimbursed based on the code or codes that correctly describe the health care services provided. UnitedHealthcare reimbursement policies may use Current Procedural Terminology (CPT®), Centers for Medicare and Medicaid Services (CMS) or other coding guidelines. References to CPT or other sources are for definitional purposes only and do not imply any right to reimbursement.

This reimbursement policy applies to all health care services billed on CMS 1500 forms and, when specified, to those billed on UB04 forms. Coding methodology, industry-standard reimbursement logic, regulatory requirements, benefits design and other factors are considered in developing reimbursement policy.

This information is intended to serve only as a general reference resource regarding UnitedHealthcare’s reimbursement policy for the services described and is not intended to address every aspect of a reimbursement situation. Accordingly, UnitedHealthcare may use reasonable discretion in interpreting and applying this policy to health care services provided in a particular case. Further, the policy does not address all issues related to reimbursement for health care services provided to UnitedHealthcare enrollees. Other factors affecting reimbursement may supplement, modify or, in some cases, supersede this policy. These factors may include, but are not limited to: legislative mandates, the physician or other provider contracts, the enrollee’s benefit coverage documents and/or other reimbursement, medical or drug policies. Finally, this policy may not be implemented exactly the same way on the different electronic claims processing systems used by UnitedHealthcare due to programming or other constraints; however, UnitedHealthcare strives to minimize these variations. UnitedHealthcare may modify this reimbursement policy at any time by publishing a new version of the policy on this Website. Policy**Overview**

This policy sets forth the requirements for reimbursement of services rendered by an Advanced Practice Health Care Provider, within a medical or other healthcare practice.

Reimbursement Guidelines for Advance Practice Health Care Providers.

Services rendered by an Advanced Practice Health Care Provider should be reported using the Advanced Practice Health Care Provider’s NPI number when the Advanced Practice Health Care Provider has an NPI number and is eligible to bill directly for services rendered pursuant to applicable laws and regulations, subject to the Services Incident-to a Supervising Health Care Provider Reimbursement Policy.

UnitedHealthcare will consider reimbursement for medical services rendered by Advanced Practice Health Care Providers, under the following circumstances:

- The service is a covered service under the member’s benefit plan,
- The service is performed by an Advanced Practice Health Care Provider within the scope of their licensure or certification, and;
- The service is traditionally considered a physician’s service.

Unless otherwise contracted with a non-physician fee schedule, UnitedHealthcare will reimburse 85% of the applicable physician fee schedule for covered services rendered by an Advanced Practice Health Care Provider.

Consistent with the Centers for Medicare and Medicaid Services (CMS) guidelines, UnitedHealthcare will apply the 85% of the established percent of CMS rate or prevailing usual and customary rate rendered by a non-network Advanced Practice Health Care Provider.
