Inflammation of Esophagus
Inflammation of Oral Cavity
Malignant Neoplasm of Ear/Nose/Throat
Migraine Headache*
Neurological Diseases Signs and Symptoms
Non-Malignant Neoplasm of Ear/Nose/Throat
Non-Malignant Neoplasm of Skin
Non-Malignant Neoplasm of Skin, with Surgery, Bilateral
Non-Malignant Neoplasm of Skin, with Surgery, Single Side
Non-Toxic Goiter
Obstructive Sleep Apnea
Orthopedic Deformity - Head and Face
Other Disorders of Ear/Nose/Throat
Other Infections of Ear/Nose/Throat
Other Infectious Diseases
Other Inflammation of Skin*

Condition-Based Episodes
Other Inflammatory Conditions of Ear/Nose/Throat
Other Sleep Disorders*
Otitis Media, Bilateral
Otitis Media, Single Side
Otolaryngology Diseases Signs and Symptoms
Routine Exam
Skin Trauma, except Burn and Open Wound - Head and Face
Tonsillitis, Adenoiditis or Pharyngitis

*Episodes for these conditions are excluded for patients whose pharmacy cost data is not available.

Procedure-Based Episodes	Claims Grouping Timeframe	
	Days Before	Days After
Adenoidectomy	14	30
Adenoidectomy and Tonsillectomy	14	30
Adenoidectomy and Tonsillectomy - 12 Years and Under	14	30
Laryngoscopy with Endoscopy - Direct	14	42
Laryngoscopy with Endoscopy - Flexible	14	42
Laryngoscopy with Treatment	14	42
Myringotomy (Note: evaluation for single-side and bilateral procedures is performed separately)	14	14
Nasal Ablation	14	42
Nasal Ablation - Submucosal	14	42
Nasal Endoscopy with CSF Leak Repair (Note: evaluation for single-side and bilateral procedures is performed separately)	14	14
Nasal Endoscopy with Dilation (Note: evaluation for single-side and bilateral procedures is performed separately)	14	14
Nasal Endoscopy with Treatment (Note: evaluation for single-side and bilateral procedures is performed separately)	14	14
Nasal Vestibule Repair	14	42
Septoplasty	14	42
Thyroidectomy	14	42
Tonsillectomy	14	30
Tonsillectomy - 12 Years and Under	14	30
Turbinate Excision (Note: evaluation for single-side and bilateral procedures is performed separately)	14	42
Tympanic Membrane Repair (Note: evaluation for single-side and bilateral procedures is performed separately)	14	42
Tympanoplasty (Note: evaluation for single-side and bilateral procedures is performed separately)	14	42

Procedure-Based Episodes	Claims Grouping Timeframe	
	Days Before	Days After
Tympanostomy - with Anesthesia (Note: evaluation for single-side and bilateral procedures is performed separately)	14	30
Tympanostomy - without Anesthesia (Note: evaluation for single-side and bilateral procedures is performed separately)	14	30

Episodes for procedures are excluded when they include a diagnosis code on the Agency for Healthcare Research and Quality (AHRQ) Trauma Diagnosis Code list (except meniscus tears), are a redo of a prior procedure, and or include services that are included in a cancer-related condition-based episode.

Important notes about UnitedHealth Premium

The information from UnitedHealth Premium is not an endorsement of a particular physician or health care professional's suitability for the health care needs of any member. UnitedHealthcare does not practice medicine nor provide health care services. Physicians are solely responsible for medical judgments and treatments.

A Premium Care Physician designation does not guarantee the quality, or the outcome of any health care services members receive. The fact that a physician does not have a Premium Care Physician designation does not mean the physician does not provide quality health care services.

All physicians in the UnitedHealthcare Network have met certain minimum credentialing requirements. Regardless of whether a physician has received a Premium Care Physician designation, members have access to all physicians in the UnitedHealthcare Network as described in the member's benefit plan.

There are various reasons why a physician may not be designated as a Premium Care Physician. A physician may not receive a designation because that physician has not been evaluated. This occurs when a physician does not practice in a specialty or market that is evaluated by Premium, or the physician's evaluation is in process. This also occurs when there are not enough measures, patients, and or episodes attributed to the physician for evaluation. This is not an indicator of the total number of patients treated by the physician, or the number of procedures performed by the physician.

UnitedHealthcare informs members that designations are intended only as a guide when choosing a physician and should not be the sole factor in selecting a physician. Members are encouraged to discuss designations with a physician before choosing them or consult with their current physician(s) for advice on selecting other physicians.

As with all programs that evaluate performance based on evaluation of a sample, there is a risk of error. There is a risk of error in the claims data used and in the way patient care is attributed to physicians. UnitedHealth Premium uses statistical testing to compare a physician's performance to benchmarks. There is a risk of error in statistical tests when applied to the data and a result based on statistical testing is not a guarantee of correct inference or classification. Physicians have the opportunity to review the data and evaluation results and may submit requests for changes and or corrections.
